EXO-GROW

## EXO-GROW™

### Rebuild Their Confidence and Power Up Your Business

Powered by EXOSOME technology, EXO-GROW™ Collection will give your clients thicker, healthier hair and the confidence that comes with it.

### Revolutionise Hair Growth

It's time to change the way you think about what's possible for hair health and fine hair.

Introducing the all new EXO-GROW™ Collection by Dp Dermaceuticals. A complete hair care solution that delivers real, visible results.

As a Salon Professional, Hairstylist or Barber, you have an expert understanding of the connection between scalp health and hair loss. This puts you in a unique position to support hair loss prevention for your clients.

For experts like you, EXO-GROW provides a highly effective tool, and a premium supplementary line to complement your existing services and retail offerings.

EXO-GROW's consciously crafted formulas are free from toxins, silicones, and parabens, aligning perfectly with the values of today's conscious consumer.

Real, visible results for your clients and your business.

## Dermatologist-tested, Conscious Formulas

EXO-GROW™ delivers real, noticeable change that clients want to maintain and will pay to keep. It's designed for Salon Professionals who want to offer something beyond traditional hair products.

Backed by K-Beauty bioscience, EXO-GROW uses clinically proven ingredients, unique EXOSOME technology, and state-of-the-art formulations to nourish the scalp, restore blood flow, promote hair density, and support stronger thicker hair.

The patented HLA-G COMPLEXA™ EXOSOMES inside EXO-GROW work together with other science-backed ingredients and cutting-edge technology to restore hair density and boost scalp vitality—an approach that offers long-term, cumulative results with ongoing application.

EXOSOMES are tiny particles that deliver growth factors and other regenerative proteins directly to the scalp. EXO-GROW's patented IT-HLA-G-EXO™ EXOSOMES bypass immune detection, ensuring long-term effectiveness. This helps to rejuvenate follicles, ultimately resulting in thicker, fuller hair over time.

EXO-GROW not only boosts hair thickness, it will boost self confidence.

No Toxic Chemicals

Compatible with Microneedling

## EXO-GROW™ SCALP MASK

### THE ULTIMATE ANTI-INFLAMMATORY SCALP DETOX

A potent cocktail of anti-inflammatory and hair-boosting ingredients provides the ideal environment for strong, healthy-looking and abundant hair. Patented bio-enzymes remove harmful skin cells and excess oil, leaving the scalp and hair stronger, cleaner and more elastic.

Apply all over a dry scalp. Massage the scalp. Leave on for 5 minutes. Rinse, then follow with EXO-GROW Shampoo & Conditioner.

#### ACTIVE INGREDIENTS:

Ceramide ComplexA, ComplexA of 17 Amino Acids, Sophora Japonica, Natural Bio-Enzymes, PDRN Polynucleotides.

## EXO-GROW™ HAIR TONIC

### PROMOTES A HEALTHY HAIR CYCLE

Reclaim a fuller head of hair from the roots up. This potent formula works to invigorate hair follicles and foster a healthy growth cycle. The enhanced bio formula includes the world's only immune-tolerant EXOSOMES, so they increase in effectiveness with each application.

Apply to a dry scalp, focusing on any problematic areas. Massage the scalp and leave on - do not rinse. Recommended for daily use.

#### ACTIVE INGREDIENTS:

EXOSOME Technology & Functional Growth Factors, Proteins & Peptides, ComplexA of Amino & Ceramide Acids, Sophora Japonica Callus Culture Extract, Polynucleotides.

## EXO-GROW™ SHAMPOO

### HELPS REDUCE HAIR FALL, IMPROVES SCALP AND FOLLICLES

Gently cleanses. Boosts scalp and follicle condition. Anti-inflammatory. Relieves itching and discomfort.

Helps prevent hair loss and hair follicle shrinkage by boosting the scalp's antioxidant levels and rejuvenating the damage caused by thinning hair.

Apply to wet hair, massage the scalp, leave for 2 minutes before rinsing out. Repeat application.

#### ACTIVE INGREDIENTS:

Ceramide ComplexA, 23-ingredient Plant ComplexA, Pea Protein, Hauso - Multiflorum Root Water, Copper Peptides, Amino Acids, Sophora Japonica Callus Culture Extract.

## EXO-GROW™ CONDITIONER

### NOURISHES AND BOOSTS SCALP AND FOLLICLE CONDITION

Protects and smooths damaged and rough hair cuticle layers. Restores nourishment to hair damaged from heat or colouring. Nourishes scalp without clogging pores, creating an environment where hair can thrive.

After EXO-GROW™ Shampoo, apply to both the scalp and the hair lengths. Leave for 5 minutes to allow the ingredients to activate, then rinse out.

#### ACTIVE INGREDIENTS:

Ceramide ComplexA, 23-ingredient Plant ComplexA, Pea Protein, Peptide ComplexA, Hauso - Multiforum Root Water, Hydrolysed Collagen & Keratin ComplexA.

## EXO-GROW™ LASH&BROW SERUM

Clinically proven to produce thicker, longer looking lashes and brows in as little as 4 weeks.

Powered by EXO-GROW Peptide ComplexA to nurture and revitalise the hair root and support more density and volume with visible results.

### ACTIVE INGREDIENTS:

EXOSOME Technology (IT-HLA-G EXO), Peptide (13) and Amino ComplexAs, Bio Protease Enzymes, Sophora Japonica, Edelweiss Extract.

## EXO-GROW™ COLOUR RECHARGE SHAMPOO BAR

Using natural ingredients, vegetable polyphenols are densely absorbed on the strands to return grey hair back to its natural colour. Perfect for beards and shaving.

### ACTIVE INGREDIENTS:

Gallic Acid and Tannic Acid, Charcoal, Sophora Japonica and Edelweiss, Soybean Protein, Black Current, Blackberry, Eggplant, Blueberry, Ceramide & Peptide ComplexAs.

## MG-EXO-GROW™

For Aesthetician/Doctor/Practitioner Use Only.

Professional grade Meso-Glide™ to be applied to the scalp and used in conjunction with professional microneedling. Our most potent EXOSOME formulation suitable for clients serious about hair regeneration.

### ACTIVE INGREDIENTS:

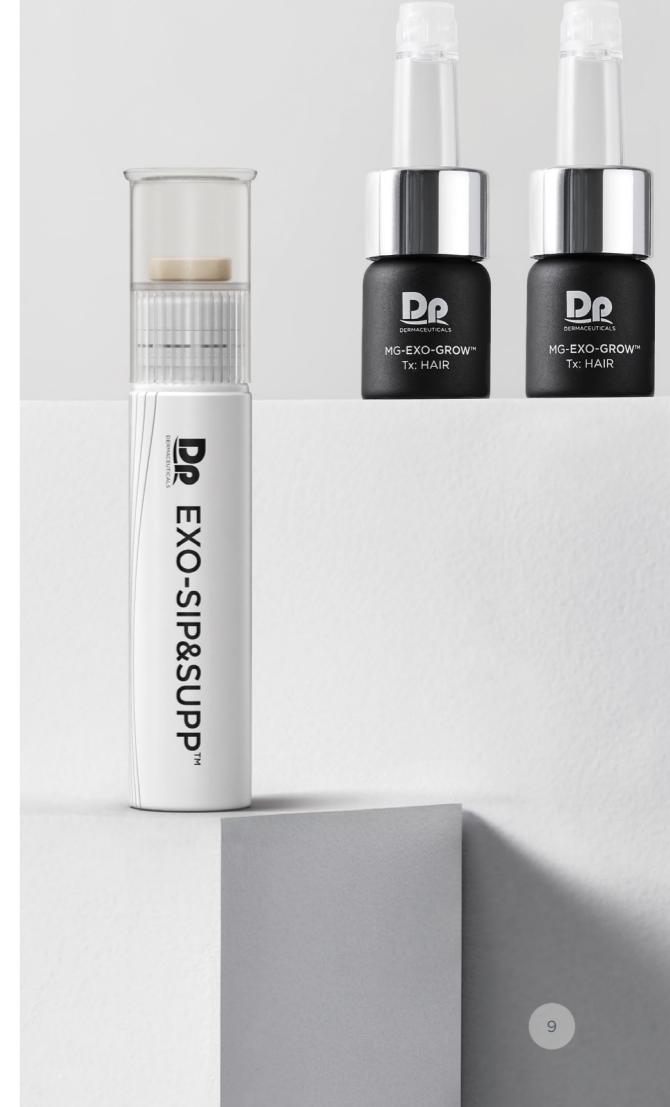

EXOSOME Technology, Hyaluronic Acid, Ceramide ComplexA Peptides/ polypeptides/ polynucleotides, 17 Amino Acids, Co-Enzymes, Minerals, Vitamins

## EXO-GROW™ SIPP&SUPP

Daily supplements for a holistic approach to hair, skin and nail rejuvenation. Enhances overall appearance with the optimal EXO-nutrient combination.

### ACTIVE INGREDIENTS:

Marine Collagen Peptides, Vital Amino Acids, Hyaluronic Acid, Niacinamide, Vitamin ComplexAs of B, C, E, and Fruit and Vegetable Extracts including White Tomato.

## YOU WILL BELIEVE

---

### **Regain.**

Powered by biomimetic EXOSOMES and HLA-G COMPLEXA™, our advanced system reawakens dormant follicles, stimulates growth, and restores vitality to thinning hair.

### **Retain.**

EXO-GROW™ doesn't stop at regrowth—it supports long-term follicle health by reducing inflammation, improving scalp condition and extending the hair's natural growth cycle.

### **Maintain.**

Haircare is a journey, not a one-time fix. That's why EXO-GROW™ offers professional in-clinic treatments, in-salon expertise, and at-home support. From the MG-EXO-GROW™ microneedling serum to the daily-use Hair Tonic, the system is designed to fit seamlessly into your clients' routines.

When clients see the transformation they'll believe in the science. And when you see the results in your chair, you'll believe in the power of EXO-GROW™.

## DERMAPEN HOME™

Dermapen HOME™ is a safe, easy and highly impactful way to support EXO-GROW Collection for hair that looks and feels amazing.

Controlled micro-injuries create channels that help the HAIR TONIC penetrate deeper into the scalp, super-charging EXOSOMES to target damaged cells.

**Usage: 1-2 times per week.**

Endorsed by leading skin specialists, Dermapen HOME™ allows clients to complement professional procedures for various skin and scalp concerns. From hair loss to ageing skin, pigmentation, rosacea, acne, scars, and more, it's a versatile device for multiple conditions.

## HARNESSING THE BODY'S OWN MAGIC

### Why EXO-GROW?

Only EXO-GROW's patented HLA-G COMPLEXA technology uses the body's natural regenerative processes to promote hair growth and improve scalp health. And does so without triggering the body's immune response. This means consistent treatments that last long enough to make a real difference.

### What Are EXOSOMES?

EXOSOMES are nano-sized vesicles that act as messengers in the body. They deliver essential proteins, lipids, and RNA to other cells, influencing their behavior and promoting healthy cell function.

### Role in Hair Regeneration

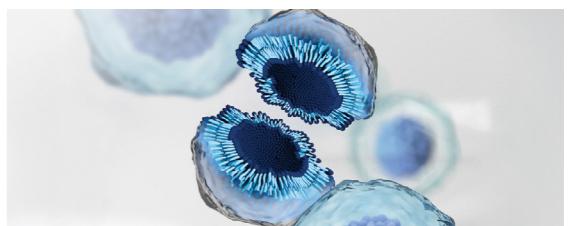

EXOSOMES play a crucial role in hair regeneration. They stimulate follicle activity, reduce inflammation and support tissue repair. By prolonging the hair growth (anagen) phase and reviving dormant follicles, EXOSOMES help address hair loss, thinning and shedding. Unlike plant or animal stem cells, EXOSOMES provide human-specific regenerative effects, making them more effective for hair care.

### Origin & Purity

The EXOSOMES used in the EXO-GROW Collection by Dp Dermaceuticals are derived from potent mesenchymal stem cells found in amniotic fluid. These EXOSOMES are immune-tolerant, meaning they do not cause rejection during cell communication, ensuring a smooth and effective treatment process.

### Biomimetic EXOSOME Therapy

Biomimetic EXOSOME therapy involves synthetically engineering EXOSOMES to mimic natural human EXOSOMES. This approach delivers regenerative effects without the use of human tissue, DNA, or cells. By utilising a human-compatible RNA blueprint, biomimetic EXOSOME therapy ensures a precise cellular response, enhancing the overall effectiveness of the treatment.

## Meet the International Experts

### Tracey Hughes

Hall of Fame Hairstylist, International Keynote Speaker, and 8-time Educator of the Year, Tracey is leading the strategic efforts, and the team, for EXO-GROW as General Manager for Global HairCare.

### Andrew Hansford

Renowned trichologist, Key Opinion Leader, and Treatment Development Specialist, Andrew is an expert in hair restoration and scalp health, who speaks on the latest advancements in hair regeneration.

### Dr Andrew Christie

A world-leading microneedling expert with a PhD in Biochemistry. Dr Christie is an award-winning educator, author, and specialist in clinical aesthetics and regenerative treatments.

### Corri Marshall

As Founder of DermapenWorld™ and the Director of Cosmeceuticals, Corri is a visionary who is dedicated to advancing innovation within skincare and haircare who is a respected mentor committed to giving back.
