LUMINÆ

BLUE MOON DEVELOPER

with Bond Builder and Papaya

\$7.99

33.8 fl. oz. (1 Liter)

NEW!

Infused with rich, blue-violet pigment to control underlying warmth and lightly "pre-tone" the hair, Luminae Blue Moon Premium "Toning" Developer is a luxurious, creamy oxidizing emulsion specially formulated to nourish, hydrate, and protect the hair strand during all color and lightening services.

Compatible with most color and lightener brands, Blue Moon Developers support the natural moisture balance of your clients' hair. Our thick, creamy formulation ensures minimal water content in the developer, preventing the dilution of color, alkalizing agents, and peroxides. Integrated bond-builders contribute to preserving the hair strand's integrity, while the introduction of blue-violet pigments effectively "cool" undesired warmth.

Available in 6, 10, 20, 30, and 40 Volume
