THE ART & CARE OF NAILS

COLOR

**150+ SHADES AND 13 PATENTS,
FOR EVERY NEED, STYLE, WANT,
FLASH, DESIRE, MOOD, FLIRT,
VIBE, VISION, OCCASION, IT'S
FOR EVERYONE!**

LONG-LASTING COLOR FOR ALL

CND™ SHELLAC™ is the original, **patented gel polish designed for 14+ days of wear** for the natural nail client who is short on time but still wants long-lasting color and shine.

CND™ SHELLAC™ applies like a traditional nail polish, adding a tough, resilient coating that is flexible, yet thin, **protecting nails from smudging, chipping and breakage** after curing in the CND™ LED Lamp.

When placed over nail enhancements it **guarantees perfect color** until the next service.

When used for a pedicure, color is exceptionally **long-lasting**.

CND™ SHELLAC™ promises **no nail damage** when the 4 essentials (SHELLAC™ Base Coat, Color Coat, Top Coat, and the CND™ LED lamp) are used.

When the whole system is used, the natural nail maintains its original strength and integrity because there is no buffing or filing required—only flawless **Butterfly Removal™ with no nail damage** for guaranteed results every time.

NOTHING BEATS THE ORIGINAL

CARE OF NAILS

Reinforcing our commitment to the 3 C's. CARE. CONDITION. COAT™.

NO NAIL DAMAGE

No buffing or filing required.

BUTTERFLY REMOVAL™

Breathable layers for quick and effortless removal.

THE ORIGINAL GEL POLISH

150+ Shades and 13 patents.

CND™ SHELLAC™ PROMISE

Guaranteed satisfaction.

BEFORE AFTER

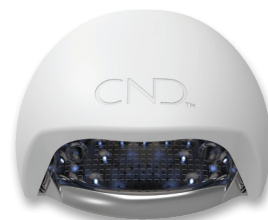

WHAT IS THE CND™ SHELLAC™ PROMISE?

It's a promise to use the full system, including the 4 CND™ SHELLAC™ Essentials to ensure clients maintain healthy-looking nails with no nail damage.

The path to the CND™ SHELLAC™ PROMISE starts with becoming CND™ SHELLAC™ PRO CERTIFIED and committing to using the four Essentials.

CND™ LED LAMP

CND™ SHELLAC™ BASE COAT

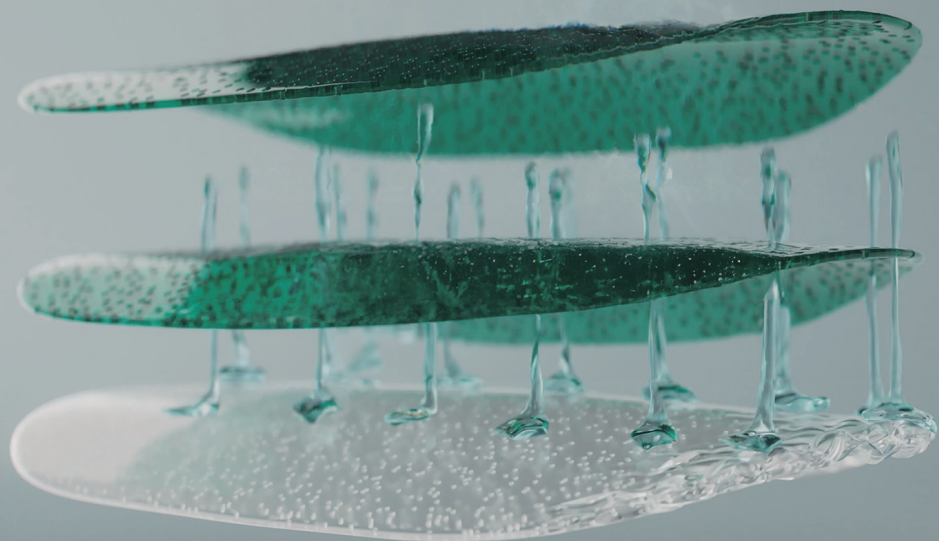

CND™ SHELLAC™ GEL POLISH

CND™ SHELLAC™ TOP COAT

CND™ SHELLAC™ POINTS OF DIFFERENCE

1. **HEALTHY-LOOKING NAILS** - Reinforcing our commitment to the 3 C's.
2. **NO NAIL DAMAGE** - Patented breathable layers for removal.
3. **BUTTERFLY REMOVAL™** - For quick and flawless release.
4. **THE ORIGINAL GEL POLISH** - 150+ Shades and 13 patents.
5. **CND™ SHELLAC™ PROMISE** - GUARANTEED satisfaction.

BREATHABLE FORMULA

While the nails themselves do not breathe, the CND™ SHELLAC™ Gel Polish formula does.

During the curing process, the solvents in the formula evaporate out of each layer, forming a network of tiny tunnels in the coating that **allows moisture and oxygen to travel in and out of the coating.**

These tunnels allow CND™ SOLAROIL™ to penetrate through the coating to condition the nails and for acetone to travel to the base layer, facilitating the BUTTERFLY REMOVAL™.

VINYLUX™

The perfect balance of professional efficacy, beauty and care. The first ever long wear polish for beautiful 7+ day wear and gel-like shine.

- Fast-drying, 2-step application.
- Increased durability with natural light.
- Patented formula.
- Matching shades with CND™ SHELLAC™.

CND™ VINYLUX™ LONG WEAR POLISH

- Provides seven-day wear, exceptional color and gel-like shine when used with CND™ VINYLUX™ Top Coat of your choice.
- Self-adhering color coat provides adhesion to the natural nail for week-long wear.
- Includes adhesion promoters that completely eliminate the need for base coat.
- High-impact color that lasts.

15 mL (0.5 fl. oz.)

CND™ VINYLUX™ LONG WEAR SHINE TOP COAT

- Creates an outer shield with time-enhanced durability that protects CND™ VINYLUX™ Long Wear Polish.
- Activates cross-linking polymerization which increases durability when exposed to natural light.
- Brilliant shine that lasts.
- Fast drying.
- Easy removal.

15 mL (0.5 fl. oz.)

CND™ VINYLUX™ GEL-LIKE EFFECT LONG WEAR TOP COAT

- The Gel-Like Effect Top Coat adds volume and protects nails with a plump effect and brilliant gel-like shine.
- Activates cross-linking polymerization which increases durability when exposed to natural light.
- Fast drying.
- Easy removal.

15 mL (0.5 fl. oz.)

BREATHABLE FORMULA

While nails themselves do not breathe, the CNDTM VINYLUXTM coating is considered 'breathable.' As solvents evaporate during the drying process, tiny tunnels form, allowing moisture, oxygen, and conditioners like SolarOilTM to travel in and out of the coating. This helps the natural nail **maintain a balance of moisture and oxygen.**

ProLight Technology

CNDTM VINYLUXTM Top Coat contains a patented ProLight Technology for high gloss shine that shields and protects the color coat.

This Top Coat gets tougher with time and exposure to natural light creating a shield of protection for the color coat and does not require a lamp to dry.

P.R.E.P. PRODUCTS

Proper prep is essential to all services;
manicures, pedicures, and enhancements.

P.R.E.P. BOOSTERS

P.R.E.P. is a systematic method of ensuring any enhancement product system adheres to the lift-prone natural nails plate without lifting.

P – Perform a manicure to guarantee there is no cuticle left on the nail plate that will act as a barrier between the enhancement coating and the natural nail.

R – Remove the “shine” from the nail surface to eliminate embedded oils and create an optimum relationship between the nail plate and enhancement product system to stick.

E – Eliminate surface contaminants on the natural nail, such as oil and debris, that will impede the enhancement product system’s ability to “bond” with the nail plate.

P – Purify the nail plate layers to remove any bacteria and oil that will prevent optimum adhesion of the enhancement product to the natural nail plate.
