SPECTRAL DNC®

Advanced Hair Density Serum

Spectral DNC® is a Minoxidil-based topical hair loss treatment designed for androgenic alopecia and other types of hair loss in men. Clinically proven to help re-grow hair, it is also significantly more effective than other topical hair loss treatments currently available which only use minoxidil.

- » Most effective regrowth topical treatment
- » Formulated with Minoxidil Sulfate
- » Nanosome encapsulation
- » Water based, non greasy, no residue
- » Multilateral approach treatment

SPECTRAL BOOSTER®

Stress Adaptogen Serum

An advanced hair boosting agent, Spectral Booster® is a breakthrough formula that incorporates Astressin-B, a powerful peptide to aid in stopping stress related hair loss problems. Proharin-B4 is also used to revitalize hair strands for healthy, stronger looking hair. Spectral Booster® is a gentle water based formula so it will not leave an oily or sticky residue.

- » Astressin-B is clinically shown to reduce stress-induced hair loss
- » Effective as a booster with other treatments
- » Drug-free
- » Water based, non-greasy, no residue

KEY INGREDIENTS

- Astressin-B
- Proharin-B4
- Copper Peptides
- Lecithin
